About Us...

Over the past 13 years of extensive research and experience in the education industry, KIDZ TREEHOUSE has developed a premium student care programme focused on the holistic development of children through experiencing nature.

We are a centre of excellence geared towards building the five pillars of holistic development for our students' -

ACADEMICS

INTERPERSONAL SKILLS

ENTREPRENEURIAL SPIRIT

CHARACTER DEVELOPMENT

CREATIVITY

What is an ECO Student Care?

Being the first Eco-inspired student care, we love to bring our students closer to nature.

We believe that the over-reliance on electronic gadgets distances our children from the outdoors and the opportunity to explore nature around them. As such, by incorporating this strategy, we hope to facilitate an environment where children are positively connected to nature.

Using the natural environment as a learning tool, the programme aims to develop a well-rounded child who possesses a beautiful character.
