Through the Principal

Dear Parents / Guardians,

+venture in Maths! magazine and P1 App-venture for Primary 1

We would like to share with you that the school has adopted +venture in Maths! magazine for all Primary 1 Clementians to foster greater interest in the learning of Mathematics through play.

Each Primary 1 Clementian will receive a total of 16 issues this year, fully paid by the school. +venture in Maths! magazine is a local Mathematics magazine that supports the learning of Mathematics in fun and meaningful ways. Teachers will use the stories and activities in the magazines to reinforce learning, deepen understanding of Mathematics concepts and help Clementians discover new Mathematical concepts. The magazine also provides parents with ideas on how to help your child learn Mathematics in authentic settings.

In addition to the print version, each Clementian will also be given an account to access the application software “P1 App-venture” which the school has subscribed to. The P1 App-venture has self-marking feature and interactive games which we hope will motivate Clementians to learn Mathematics anywhere and anytime, thus inspiring them to be self-directed and keen learners. Please refer to Annex A for details on the P1 App-venture.

We look forward to your support and partnership in your child’s learning of Mathematics.

Yours sincerely,

Ms Georgina Ng
