24 June 2020

CTP/2020/P/VP/042

Dear Parents / Guardian,

Clementian-Teacher-Parent (CTP) e-Conference 2020

In previous years, we arranged for parents / guardian to come to school for a face-to-face Clementian-Teacher-Parent Conference (CTP Conference), where your child shares his/her learning with you during a 10 - 15 minutes session facilitated by your child's Form Teachers.

Throughout the Full Home-Based Learning (FHBL) period during the Circuit Breaker, we have witnessed how adaptable Clementians are in harnessing the use of technology in their daily learning. In line with safe management measures in Clementi Primary School, we have adapted our annual CTP Conference into a **CTP e-Conference** for 2020. Your child will take the lead in sharing his / her learning progress with you, using their learning portfolios as conversation starters.

The school has strengthened our efforts in getting Clementians to participate in the learning process as active learners. Many Clementians have also taken the opportunity during the FHBL period to put together their learning portfolio. This learning portfolio, stored digitally, allows Clementians to continually build content progressively through the years that they are in Clementi Primary School, thereby allowing them to monitor their own learning progress and reflect on their learning experiences.

In regular consultations with their respective subject teachers, the learning portfolio is part of every Clementian's assessment of his/her learning, and the deliberate thought process of planning and putting together the learning portfolio helps to develop them as active learners. The learning portfolio also enables you to better understand your child's learning progress and areas of interest / concerns.

8 Clementi Avenue 3 Singapore 129903 Tel: 67797449 Fax: 67732898 Email: admin_clementi_ps@moe.edu.sg

Between **29 June and 17 July 2020 (Term 3 Week 5 - Week 7)**, your child will be approaching you to share about his/her overall school experience in Semester 1 as part of their learning process and reflection, having had the unique opportunity to complete learning tasks both in school and via online platforms. Your child may share his / her learning face-to-face, via email or using presentation slides.

This year, we would like to invite you to pen down some words of affirmation and encouragement for your child after his / her sharing. We strongly believe that when parents / guardian and teachers continue to work together to get Clementians to reflect on their own learning progress, and keep encouraging them to find ways to overcome challenges, Clementians will discover the joy of learning and grow to become lifelong learners.

In the form, you may also indicate whether you would like to have a further discussion on your child's learning progress and disposition with his / her Form Teachers. The meeting is estimated to take about 15 minutes.
